## Communication Form (Email/ Text/ Social Media)

Grafton Animal Hospital is making more efforts to become a greener practice. Please help us by providing the following information:

**Email:** Grafton Animal Hospital uses a service to email pet healthcare reminders, newsletters and important pet information such as food recalls. This allows you to receive information about your pet faster and gives you access to your very own Pet Portal that you can use to schedule appointments and check your pet's healthcare information at any time and from any computer. Can we add your email to your account? If so:

---

(Email Address)

**Text:** We are exploring the possibility of confirming appointments and urgent communication by text messaging to your phone. If you would like to use text messaging for these purposes, please list the phone number in which you would receive these texts:

---

**Social Media:** Grafton Animal Hospital is on Facebook and other social media. Occasionally, we see the opportunity to share information about an interesting case or a fun photograph that may involve your pet(s), for example, pets having fun in daycare, cute pets for our website, and maybe even ugliest dog contest winners (don't worry, must enter to win). Grafton Animal Hospital may use your pet's name, but never the owner's name or any other private information. However, there may be information about the case or photograph displayed on our page.

I have read the Grafton Animal Hospital Social Media policy and understand its contents.
